PROFESSIONAL SUMMARY

Software Engineer with 3+ years building scalable production web applications across the full stack. Promoted to SDE-2 at Orufy within 16 months for leading frontend architecture of its core SaaS platform. Experienced in React.js, Next.js, Node.js, NestJS, and MongoDB, with end-to-end ownership from design to production.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript

Frontend: React.js, Next.js, Tailwind CSS, Shadcn UI, Vite, HTML, CSS

Backend: Node.js, NestJS, Express.js, MongoDB (Mongoose), WebSocket, Socket.io

Libraries/Platforms: TanStack Query, Zustand, Zod, Strapi CMS, CASL

Tools: Git/GitHub, Turborepo, CI/CD (Familiar), AWS (Familiar)

PROFESSIONAL EXPERIENCE

ORUFY TECHNOLOGIES — Jaipur, India

DEC 2023 - FEB 2026

Software Development Engineer 2 (SDE-2) | Apr 2025 - Feb 2026

- Led frontend architecture for Orufy Projects SaaS, scaling the product through delivery of 25+ features from planning to production deployment.
- Ensured production stability through architectural improvements, proactive debugging, and rigorous code quality practices.
- Mentored 5 engineers through code reviews and technical mentorship, helping 2 interns transition into full-time engineering roles.

Software Development Engineer (SDE-1) | Dec 2023 - Apr 2025

- Promoted to SDE-2 in 16 months for consistent high-impact delivery and ownership across multiple products.
- Architected and built the initial frontend foundation for [Orufy Projects](#), delivering 15+ foundational product features using Turborepo, React Flow, and WebSockets.
- Engineered two revenue-generating Pro plugins for the WebtoNative platform, building complete React configuration interfaces supporting premium product monetization.
- Single-handedly revamped the Orufy Connect chatbot dashboard in one week, translating Figma designs into a pixel-perfect Next.js and Tailwind CSS implementation.

MALIK VENTURES — New Delhi, India

SEP 2022 - DEC 2023

Full Stack Developer

- Converted from intern to full-time based on strong delivery and early impact across internal products.
- Single-handedly designed and developed radixhealthcare.org from scratch using Next.js, Tailwind CSS, and Strapi CMS, integrating appointment booking for 60+ doctors.
- Enhanced and scaled multi-tenant internal platforms, shipping 10+ features, resolving 30+ bugs, and fixing critical cron and database synchronization issues.
- Developed the frontend for a hospital operations and inventory management system using Next.js and Bootstrap, designed for multi-business scalability.

PROJECTS

KONVERTIFY — Open-Source File Conversion Tool

[LIVE DEMO](#) | [GITHUB](#)

Tech Stack: React, TypeScript, Vite, Tailwind CSS, Shadcn UI, WebAssembly (ffmpeg)

- Engineered a privacy-first offline file conversion tool using WebAssembly (ffmpeg), supporting 10+ file formats with zero uploads and no backend infrastructure costs.
- Implemented a dynamic command generation engine supporting scalable multi-format conversion and efficient batch processing.

EDUCATION

RAJASTHAN TECHNICAL UNIVERSITY (RTU)

Bachelor of Technology in Computer Science

Jaipur, India

2019 - 2023
